AoE: The AI of everything, Part Two

via IT World Canada

By Stephen Ibaraki FCIPS, I.S.P., ITCP

In my last [blog](#) about AoE we introduced several topics to demonstrate AI's impact including the size of the financial services marketplace, the meaning of machine learning as the basis of AI, the proliferation of Chatbots and how AI is the inflection point for financial services and AI's wide coverage, usage, and proliferation of tools. In part two, we continue this discussion.

AI is driving the enterprise

AI is driving new innovation business strategy due to machine learning integration into all nine areas of [Alex Osterwalder's Business Model Canvas](#) that is the foundation of agile enterprises:

What would Alan Turing think about Pokémon Go?

via IT World Canada
By Mark Olson I.S.P., ITCP

It had been another rough day in hut 8.

Alan knew the math was correct. But when elegant theories clashed with the reality of poorly made cogs and technicians that wouldn't follow simple instructions, things went wrong.

He knew they were close. It would work. But you could never completely chase away the doubts. What if they failed? Would not the time and money be better spent on planes and bombs that would do good today, rather than a pile of wires and parts that might help tomorrow?

Learning about being politically correct from the U.S. election

via IT World Canada
By Donna Lindskog I.S.P. (ret.)

The American presidential election debates have made political correctness an issue.

Though, I have never liked the term "political correctness." It implies that whatever you are saying is not really correct, and you are only saying it to look good. [Donald Trump](#) is saying we should stop being politically correct but unfortunately he means we should start saying all those things that are not politically correct. What we need to understand is that being respectful is just plain correct.

Call for Volunteers: CIPS Experience Review Committee

Interested in actively supporting your Professional Society? Looking for a new challenge? The CIPS Certification Council, the body responsible for managing the professional certification application policies and procedures, is looking for certified members to serve on the CIPS Experience Review Committee.

What do Experience Review Committee Members do?

- Review and assess experience details of certified applications;
- Prepare detailed findings on the assessment;
- Report the findings to the Office of the Registrar
- Provide clarification and advice to the Certification Council on marginal or rejected applications;
- Provide advice to the Office of the Registrar on pre-assessments;
