## IFIP IP3 Launches Global CyberSecurity Specialism

### New Professional Standard for People Working in CyberSecurity Roles

The professional standards arm of the global federation of ICT professional societies, IFIP IP3 (International Professional Practice Partnership), has announced the first CyberSecurity Specialism for ICT professionals working in this critical discipline.

The Specialism, which is an add-on to IP3's existing standards framework for ICT professionals, will be available to any individual members of IFIP's member societies which have been certified by IP3.
