## IT career planning: Time, talent and treasury

IT World Canada

As the Christmas season ends along with another year, this seems to be a perfect time to refocus our time, talent and treasury. Thinking specifically of our IT professional career, with time slipping quickly and limited treasury, planning to develop our talents requires careful thought.

## I.S.P. and ITCP holders: Did you re-certify in 2013?

CIPS

Re-Certification is a requirement in order to maintain your I.S.P. and/or ITCP designation(s). If you received your I.S.P. and/or ITCP certification in 2010 or earlier you are required to re-certify for 2013. If you have not already done so please re-certify asap to maintain your I.S.P. and/or ITCP certification.

## CIPS Calgary Jan. 22 Event: 'Real-time operational intelligence in order to identify business opportunities or threats in a timely, proactive manner'

CIPS

Organizations today are realizing that their traditional BI solutions must be augmented with real-time operational intelligence in order to identify business opportunities or threats in a timely, proactive manner. Key business events often lose their value over time, and thus it is important to process these events as soon as possible in order to derive their maximum value and reduce decision latency.

## Help enhance the IT skills of your non-IT staff!

CIPS

Competing in today's global economy requires a company to utilize technology in order to boost productivity. Two key elements for a company to realize the productivity advantage are a workforce that embraces the adoption of technology, and a workforce that can effectively use the technology.
