CIPS AB Calgary Jan. 25 SIG Meeting: 'Welcome to the Cognitive Era'

CIPS

The digitally enabled business is not the destination, but the foundation for the Cognitive Business Era, known to many as Watson. While there are great benefits from applying the individual technologies of cloud, analytics, security, mobility and social — the greatest value comes from putting these capabilities together, in the context of an industry; we're doing that with Petroleum and Mining, we're bringing cognitive to this industry which will revolutionize how we solve problems. Can visual analytics be the savior of the oil and gas industry?

IT World Canada

Visual analytics is an under-utilized information analysis technology that can be the savior of the oil and gas industry. The oil and gas industry is suffering through the effects of a severe and protracted price collapse. Every producer has stopped production at suddenly unprofitable wells and is examining every conceivable way to improve profitability of the remaining wells. [READ MORE](#)

CIPS AB Calgary Feb. 22 Event/Webinar: 'Achieving Value from Visual Analytics'

CIPS

Visual analytics can produce significant tangible value for many organizations. Visual analytics unlocks the value in the data many organizations acquire. In this presentation, Yogi Schulz will explore how the impediments to achieving tangible value from visual analytics can be overcome with best practice recommendations. [READ MORE](#)
