### Precedent needed to be sure private messages stay private

IT World Canada

Email and texting may seem private, but we need some legal precedents to be sure. BBC news is reporting that European employers can read employees' private messages at work. The argument is that in this case there was a company policy that workers were not to use the internet for anything but work. Thankfully that is no longer very common in the Canadian workplace. ## Survey: Half of cyber attacks on Canadian firms succeed

IT World Canada

A group of Canadian infosec pros say the number of cyber attacks their organizations faced increased 17 per cent in 2015 over the previous year, according a new survey, with just over half admitting sensitive information had either been lost or exposed. The study, done for Toronto-based systems integrator Scalar Decisions Inc., was compiled from responses of 654 IT and IT security practitioners in Canada in a wide variety of industries. **READ MORE**

Extracurricular, leadership and community involvement activities may also be considered. **READ MORE**

### Featured Webcast: Going Hybrid with APM

CIPS via IT World Canada

Security, reliability, and scale concerns mean you can't monitor all of your mission-critical workloads with on Cloud APM. Enter Hybrid APM, allowing you to use IBM Performance Management on Cloud for the workloads you want, on premises for others, and still use a single dashboard to see it all in one place! Best of all, you can switch the mix as you go. **READ MORE**

### 2nd Annual Big Data & Analytics Summit Canada

CIPS

From retail to telecommunications, e-commerce, transportation and banking, big data is revolutionizing the way Canadian businesses operate. With expanded storage capacity and new forms of data processing, big data analytics is paving the way for more confident corporate decision-making. **READ MORE**

### IBM Webcast: 'SAP on the cloud: migrate, then innovate'

CIPS

In today's competitive business environment, organizations are continually seeking new ways to drive innovation, both internally and externally, for their customers. While cloud is seen as a way of delivering that innovation, for many organizations the path to cloud is not clear. **READ MORE**
