Apple vs FBI: Why we need a 'Made in Canada' solution

IT World Canada

You will already be familiar with the court order initiated by the FBI in California, directing Apple to circumvent the device lock on an Apple iPhone that was used by Syed Rizwan Farook, one of the perpetrators of the San Bernardino shooting. There is no value in repeating here what has already been covered elsewhere. Unless one of the few developers hidden away on Infinite Loop that really know something about the subject come forward, most of the technical coverage is pure speculation anyway. **[READ MORE](#)**

With more than 25 years in Oil and Gas, Brad is responsible for developing and leading Cisco's "go to market" strategy for Energy. He works with industry partners, education institutions, and Oil and Gas organizations. **READ MORE**

CIPS SK Saskatoon March 16 Luncheon: 'SMART Infrastructure in Communities'

CIPS

One of the challenges that communities face, is that "smart" infrastructure components now require expertise to evaluate their infrastructure investment — from a technology perspective. Lexcom is working with progressive community leaders at how technology and "internet of everything" plays into their strategy, budget and asset management. **READ MORE**

2016 IEEE innovation winner Chris Howard on transforming the enterprise

IT World Canada

Kersplody was amongst four emerging Internet of Things (IoT) technologies taking the top prizes at the 2016 CES IEEE global competition. Understanding and using IoT is a focus for enterprises where it is essential to perform real-time interactive analysis integrated with automated decision systems. Moreover, security throughout the organization and on the edge is paramount. I had a chance to talk with Kersplody co-founder Chris Howard about his recommendations for the enterprise. **READ MORE**

CIPS SK Regina March 16 Luncheon: 'SMART Infrastructure in Communities'

CIPS

One of the challenges that communities face, is that "smart" infrastructure components now require expertise to evaluate their infrastructure investment — from a technology perspective. Lexcom is working with progressive community leaders at how technology and "internet of everything" plays into their strategy, budget and asset management. **READ MORE**

How our team leveraged Open Data and Innovation ... and won !

LinkedIn

Open Data is the term used to describe the idea that some data should be freely available to everyone to use and republish as they wish, without restrictions from copyright, patents or other mechanisms of control. One of those events was the first ever Open Data Idea Jam co-hosted by The City of Mississauga, in partnership with Sheridan College and I-CUBE (University of Toronto Mississauga). **READ MORE**
