CIPS CONNECTIONS
Connecting you to news affecting CIPS and the IT Profession

Home   About   Join   Certification   IT Events   IT Jobs   Contact   f 🐦 in

IMPORTANT MESSAGE for Non-Member Subscribers:

We don't want to lose you! How to stay on the distribution list.

Thank you for being a subscriber of *CIPS Connections*, which is sent to members of CIPS — Canada's Association of I.T. Professionals, our partners, and other subscribers who want to be informed about news affecting the IT profession. CIPS values your interest in the Association and wants to ensure that you continue receiving *CIPS Connections* every week.

YOUR ACTION IS REQUIRED: Canada's anti-spam legislation (CASL) will go into effect July 1, 2014, and in order to remain staying informed with the latest industry and association news, via *CIPS Connections*, please click here to opt-in. By not opting in to receive this valuable weekly source of news and information, you will not receive *CIPS Connections* once the legislation takes effect.

Continue to stay in touch with CIPS by opting in today. Opt-in here!

How ethics applies to change management
IT World Canada
Consider what you would do if you were the IT analyst assigned to decide the technology for the next update to your system. CIPS Code of ethics applies every time you make a design decision or recommendation. Here it has several implications that you have probably thought about and one that you probably do not do much soul searching about.

May CIPS Volunteer of the Month: Joan Cosford I.S.P. (ret.)
CIPS

CIPS has provided me with the opportunity to interact with a large number of IT professionals working in very diverse industries and roles.

As a person retired from IT, active participation on the CIPS-BC Board has allowed me to maintain a connection with the profession.

CIPS SK Regina June 11th Luncheon: "The Times They Are a-Changin'"
CIPS

Projects and System Implementations are only successful if they are embraced and used to improve current business processes. Technology is only valuable if it drives benefits to the organization and in order for that to happen, people have to be READY, WILLING, and ABLE to adopt the change.

Panasonic Toughpad FZ-M1 review V3.co.uk Panasonic's Toughpad FZ-M1 is the latest in the firm's line of rugged devices aimed at workers out in the field. With a 7in screen and weighing just 540g, the slate-mode tablet is highly portable, without compromising too much on performance. READ MORE	**Why good interpersonal skills are essential in IT** IT World Canada Most professional résumés say the person has "good" interpersonal skills because companies for years list them as a requirement. But what are they and why are they so critical to your professional IT career? READ MORE	**CIPS Webcast: Tom Keenan** CIPS Mr. Tom Keenan wrote his first machine and assembler language programs in 1965 and by 1972 was working as a systems programmer on the KRONOS and MULTICS operating systems. This led to a long career as a computer science professor, media commentator and writer about the human side of technology. READ MORE

Apple to open iOS a little

IT World Canada

In the fight over whether operating systems should be open or proprietary, Apple has always been in the proprietary corner, with its control over its operating systems. But facing fierce competition from Android — which has more smart phone sales if not profits — at its annual developers conference on Monday Apple said its upcoming iOS 8 mobile and OS X desktop OSs will open up a little.
