Help build a prioritized list of National Occupational Standards (NOS) for Business Technology Management (BTM) occupations

CIPS

Are you a Human Resources (HR) person or an "in the trenches" ICT professional at the B or C managerial level, who has technical knowledge and understanding of Business Technology Management (BTM) related occupations under your jurisdiction or perhaps you know an individual within your company who fits this profile? The BTM area includes occupations such as business analysis, project management, change management, consulting, entrepreneurship, and IT management.

Help CIPS support professionalism and ethics in I.T.

Indiegogo

In the wake of HeartBleed and the numerous recent privacy breaches that have created growing concerns, the need for professionalism and ethics in IT has never been higher. We live in a highly connected world where technology has become the central nervous system of our modern society. Technology has changed our world for the better, but technology also has fantastic potential for misuse as far too regularly witnessed.

A tool for Canadian SME's in their battle to improve cyber-security

IT World Canada

Taken all together, it would seem that in Canada, almost all medium and many small enterprises use the internet and so are vulnerable to security threats. The breakdown of respondents in the ICSPA report makes it clear Canadian SME's are being hit by cyber-crime events and other security breaches.

How to secure your organization's mobile devices

Cisco

Today, cybercriminals and Canadian business leaders share a common challenge: both are trying to figure out how best to leverage Bring-Your-Own-Device (BYOD) and mobility trends to further their operations. In fact, IDC Canada recently released a report on Canadian mobile habits that revealed Canadians urgently need help to secure their devices.

National Privacy & Data Governance Congress: Early Bird Registration expires Aug. 15th!

CIPS

As you can see from the PACC website at <http://pacc-ccap.ca/congress/>, PACC already has an amazing line-up of speakers that will provide Congress delegates a novel learning experience that's long overdue. The format of all plenary, workshop and breakout sessions will be longer than you're used to. And presentations will be shorter — so that there will be plenty of time for delegates to pose questions, get answers, and engage in meaningful conversations with presenters, colleagues, and decision makers from across Canada.

10 things developers should know about customer experience

IT World Canada

I regularly moderate round tables on topics of interest to CIO's. These are closed-door sessions and participants are screened to allow us to have a frank, peer to peer discussion about critical topics. The sessions are sponsored, but the rules are clear — sponsors are expected to send a real expert in the topic and no sales pitches are allowed.
