CIPS Webcast: Trevor Nimegeers — 'Adapting IT Legacy Thinking to Mobile' (Member-Only Content)

CIPS

With over 20 years of experience working with companies to enhance and streamline content management systems, portals and collaborative technologies, Mr. Trevor Nimegeers began focusing on the mobility initiatives six years ago. In 2008, Mr. Nimegeers launched a mobile start-up that was acquired by Wmode in 2012 to leverage his understanding and expertise in enterprise mobility.

Dealing with IT setbacks

IT World Canada

IT isn't flawless — often there are disappointments. How staff handle and deliver bad news involves remaining calm and focusing on the facts.

How much is too much IT security?

IT World Canada

Usually security implementers are aware of all the red tape they create, and evaluate the trade-offs against the value of what they are guarding. Usability and efficiency are certainly important, but it is more important that they consider the ethics of what they are building.

Featured Whitepaper: 'Making The Right Flash Memory Storage Array Buying Decision'

CIPS

A dramatic shift in data centre infrastructure is on its way — from the tried and true HDD-based storage arrays to the next-gen all-flash arrays. Organizations have difficult decisions to make because the options have never been greater or more varied.
