Yes, it's a bad year for breaches

IT World Canada

It not only feels like 2014 is a terrible year for data security, it is, at least in the U.S., where the Identity Theft Resource Center keeps track. The centre's most recent count shows there have been 568 breaches for far this year in the United States, exposing over 75 million pieces of private information.

iTech Live Webinar Oct. 2: 'The Steve Jobs Way'

CIPS

Developed with the support of Jay Elliot (Steve Jobs former advisor, SVP of Apple, and author of *The Steve Jobs Way*) this workshop will teach you valuable information about two of the biggest strategies necessary to be successful in any industry — innovation and leadership. Innovation pushes us to create new ways to achieve our goals while

saving money, time, and producing better results. Ultimately, innovation teaches us to become more efficient, which is necessary to remain competitive.
