TOP NEWS

Information technology: Trade or profession?

IT World Canada

A subject that has generated some lively discussions recently is the perception of IT as a whole. Is IT merely a trade or is it a true profession? [READ MORE](#)

CIPS SK Regina Oct. 28 Luncheon: 'What percentage of your business applications runs in the cloud?'

CIPS

Sereniis is a managed communication tool created and operated in Saskatoon. The system is cloud-based and runs on the Windows Azure platform. Sereniis will share the logic behind and how it achieved its customer price list, the process, as well as feedback and tips for other businesses interested in bringing their services to the market. [READ MORE](#)

What does a Liberal government mean for Canada's technology policy?

IT World Canada

Canadians went to the polls on Oct. 19 and many of them voted for change in Canada's 42nd General Election, with the Liberals being vaulted from third-place party straight into a majority government. With Prime Minister Justin Trudeau taking the helm, what does the change in leadership at the federal level mean for Canada's technology policies that might affect your business? [READ MORE](#)

New government will deal with privacy regulations, wireless

IT World Canada

When Justin Trudeau is sworn into office as the country's newest Prime Minister shortly, he'll have a lot on his plate. But privacy officers will be looking for one thing that's already on Industry Canada's agenda: regulations for implementing the *Digital Privacy Act*. **READ MORE**

CIPS needs your input: 'Creating your ideal technology professional organization: Your input shaping the future of CIPS'

CIPS

CIPS, Canada's Association of I.T. Professionals, has embarked on a strategic initiative to chart the future of the organization and its place within the information, technology, and communications (ICT) profession in Canada. The process begins with asking for the voice of stakeholders through a short online survey. **READ MORE**

2nd Annual Big Data & Analytics Summit Canada

CIPS

From retail to telecommunications, e-commerce, transportation and banking, big data is revolutionizing the way Canadian businesses operate. With expanded storage capacity and new forms of data processing, big data analytics is paving the way for more confident corporate decision-making. **READ MORE**

Featured Webcast: Security Considerations for Private vs. Public Clouds

CIPS

The cloud movement presents a rare and momentous opportunity to revisit not only how we think about computing, but also how we think about information security. In this exclusive webcast Palo Alto Networks and the Cloud Security Alliance talk about the latest white paper that discusses security considerations for public and private clouds. **READ MORE**
