IBM Webcast: 'SAP on the cloud: migrate, then innovate'

CIPS

In today's competitive business environment, organizations are continually seeking new ways to drive innovation, both internally and externally, for their customers. While cloud is seen as a way of delivering that innovation, for many organizations the path to cloud is not clear. **READ MORE**

CIPS Alberta and CIC present: 'A Mixer with Microsoft Cloud Solutions' (Nov. 17, Calgary)

CIPS

Join us for our holiday mixer with a light refreshment and drink while we discuss what's new in the way of cloud-based solutions with Microsoft. You will learn about:

- The state of cloud services and cloud adoption in organizations
- Canadian DC (data center) announcements and what that means to both customers and partners
- Programs for both customers and partners to take advantage of Microsoft's cloud service
- Security and architecture for the ever-evolving IT Professional **READ MORE**

CIPS AB Calgary Nov. 25 Event: 'Internet of Things (IoT)'

CIPS

Brad Bechtold, National Director Oil and Gas Transformation with Cisco will speak on the Internet of Things. With more than 25 years in Oil and Gas, Brad is responsible for developing and leading Cisco's "go to market" strategy for Energy. He works with industry partners, education institutions, and Oil and Gas organizations. **READ MORE**

CIPS BC Victoria Nov. 26 Lunch: '2015: The Information Security Landscape'

- Manage visibility, control and security
 - Handle deployments in hybrid cloud environments
 - Realize and recognize the business impact of hybrid cloud
- READ MORE**

Featured Whitepaper: 'Strengthen security with intelligent identity and access management'

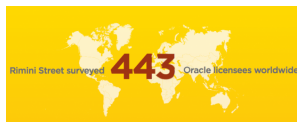

CIPS

In today's multi-perimeter world — where users can access your corporate assets from any device, anywhere — it is more important than ever to ensure that online interactions are kept secure, private and compliant. Discover how you can deliver role-based access to the right people at the right time, monitor use to find anomalies and security gaps, and proactively fix vulnerabilities to help prevent malicious activities in the future. **READ MORE**

Survey: Oracle users shy away from cloud because of high costs

IT World Canada

While Oracle chairman Larry Ellison says his company is ready to shift to a cloud focus and many of its customers are making the move, a new survey from an independent software support provider indicates otherwise. **READ MORE**

Digital Talent Strategy 2020 Participant Survey

ICTC/Microsoft

Information and Communications Technology Council (ICTC), in partnership with Microsoft Canada, would like your input on an important initiative we are undertaking, the development of a digital talent strategy for Canada — Digital Talent 2020. As an organization/representative of Canada's digital economy, your insights will be invaluable to inform the strategy. **READ MORE**

Is your BYOD policy working? If not, here's what can be done

IT World Canada

Although a number of CISOs hate the phrase BYOD, the fact is many organizations have been forced to allow staff to log onto corporate networks with personal devices, hopefully agreeing to follow certain practices or use personal devices that segregate personal and corporate data. **READ MORE**
