CIPS Webcast: Jeannot Blanchet — 'The Role of Technology in Creating the Financial Institution of the Future' (Member-Only Content)

CIPS

In this presentation, we will look at the profound structural changes happening in the global financial services industry since the 2008 financial crisis, and the major trends which will affect the Canadian financial services industry in the coming years. In particular, the important role of the exponential changes in technology in the next five to 10 years will be discussed in the context of financial services.

ITAC part of effort pressing Ottawa on anti-corruption regulation

IT World Canada

A number of industry associations including the Information Technology Association of Canada (ITAC) are increasing pressure on Ottawa to bend on its recently made regulations which may ban Hewlett-Packard Canada and Siemens AG from federal contracts for a decade because divisions have been convicted of corruption in other countries.

Featured Whitepaper: 'Breach Prevention Does Not Work — Learn How to Secure the Breach!'

CIPS

Breaches are inevitable, but data loss is not. A shift to breach acceptance and viewing data security — not perimeter security — as the top priority will help you safeguard critical data and protect your customers and business.
