## TOP NEWS

### Machine Learning Master Algorithm: Next big wave for enterprises

IT World Canada

What has a bigger impact and is more disruptive on the enterprise than the Internet, IoT, mobile/embedded smart devices, cloud, social networking, social media, 3-D printing, augmented/virtual reality, robotics, and drones? Machine Learning (ML). Your enterprise will live, grow, and die from ML. ML provides huge

competitive advantage for those strongly embracing it. What are you doing about it? How much do you know about ML? [READ MORE](#)

### IBM Webcast: 'Evaluating Price And Performance of Cloud Providers: SoftLayer vs. AWS and Microsoft'

CIPS

This webcast details a set of price performance comparisons involving common workload scenarios, benchmark tested by the IBM Competitive Project Office on IBM SoftLayer, Amazon Web Services, and Microsoft Azure. These directly comparable, detailed price performance studies show that IBM SoftLayer delivers true cloud infrastructure savings compared to Amazon and Microsoft.

## CIPS PEI Nov. 26 Lunch: 'Mission Possible: Recognizing people by the way they walk'

CIPS

The topic this month is "Mission Possible: Recognizing people by the way they walk," presented by Patrick Connor, PhD, PEng, Postdoctoral fellow at ViTRAK Systems Inc. Come and learn how technological innovation has been put to use in assisting with the identification of individuals based on a person's unique body movement, rather than a fingerprint or iris scan. **READ MORE**

## In conversation with Anne Miroux, UN leader for science, technology & innovation

IT World Canada

With executives and enterprises increasingly subject to scrutiny by shareholders and consumers on their societal contributions and impact, the United Nations provide a benchmark in this work. Particularly in the World Summit on the Information Society (WSIS) action lines and Sustainable Development Goals (SDGs). Anne's contributions provide valuable insight! [READ MORE](#)

## Cloud maturity briefing paper via IBM

CIPS

Read what more than 700 IT and business leaders are saying about the impact of cloud. Maturity pays. Especially when it comes to cloud. [READ MORE](#)

## Featured Webcast: Going Hybrid with APM

CIPS via IT World Canada

Security, reliability, and scale concerns mean you can't monitor all of your mission-critical workloads with on Cloud APM. Enter Hybrid APM, allowing you to use IBM Performance Management on Cloud for the workloads you want, on premises for others, and still use a single dashboard to see it all in one place! Best of all, you can switch the mix as you go. [READ MORE](#)

## CIPS AB Calgary Nov. 30 Business Intelligence SIG MEETING: 'SAP Predictive Analytics'

CIPS

Expose untapped opportunities and hidden risks buried in Big Data — with predictive analytics from SAP. Predict and influence business outcomes and respond to change before it happens. Combine capabilities such as predictive modeling, Big Data mining, real-time business intelligence (BI), data visualization, and more, to see what trends are emerging and where performance is headed.
