## TOP NEWS

### CIPS Podcast Interview with the new Chair of the CIPS National Board Bashir Fancy, I.S.P., ITCP

CIPS

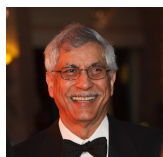

I joined CIPS in early 1980s. CIPS had both an excellent reputation and certification program that was very helpful for my career. It not only provided learning, but also networking opportunities that were helpful in exchanging valuable information with my peers. It demonstrated that I had achieved a certain professional standard which was useful with my employers and general Industry. [READ MORE](#)

### CIPS Blog: 'The Future of CIPS' — Bashir Fancy, I.S.P., ITCP, Chair of the CIPS National Board

CIPS

Over the years, significant advances in technologies have compelled some businesses to revisit how they conduct their operations. Advancement in technology and globalization has created both opportunities and challenges. Those who have embraced changes are able to compete with new disruptive businesses or their competition. ## 5 steps to effective workload analysis for cloud

CIPS via IBM

Moving to a cloud environment can lead to greater agility and cost savings. But migration to cloud is not just about consolidation and virtualization. To speed cloud adoption, you must determine how your target cloud(s) will fit with your particular workloads. [READ MORE](#)

## CIPS AB Calgary Nov. 30 Business Intelligence SIG MEETING: 'SAP Predictive Analytics'

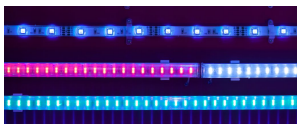

CIPS

Expose untapped opportunities and hidden risks buried in Big Data — with predictive analytics from SAP. Predict and influence business outcomes and respond to change before it happens. [READ MORE](#)

## Li-Fi has just been tested in the real world, and it's 100 times faster than Wi-Fi

Science Alert

Expect to hear a whole lot more about Li-Fi — a wireless technology that transmits high-speed data using visible light communication (VLC) — in the coming months. With scientists achieving speeds of 224 gigabits per second in the lab using Li-Fi earlier this year, the potential for this technology to change everything about the way we use the Internet is huge. [READ MORE](#)

## Chat with Robin Pimentel: International engineer, tech executive, entrepreneur, investor

IT World Canada

Innovation colonies and investments, agility, disruption, customer development, lean startup, minimum viable products, business model canvas, mobile, cloud — all key words and strategies today driving enterprise survival and success. Robin Pimentel is at the heart of these catalysts with his experiences in investments, working with startups and laying the foundation network architectures for Gaikai, Onlive, Facebook, Google, and Yahoo. His deep insights are valuable to enterprises and executives. [READ MORE](#)

## CIPS INTERVIEWS: Anne Miroux, Director, Division on Technology and Trade Logistics, Head of the CSTD Secretariat UNCTAD

CIPS

Anne Miroux began her career in the United Nations in 1979 at the UN Centre on Transnational Corporations in New York where she was involved in the negotiations on the UN Code of Conduct on Transnational Corporations. Over the years she has worked on issues related to international debt, investment and enterprise development, technology and innovation, and trade logistics. [READ MORE](#)

## Featured Whitepaper: 'End-of-support-devices:Time to Upgrade is Now'

CIPS via IT World Canada

Sadly, it's too often the case that something needs to "go boom" with networking devices for organizations to realize there's even a problem with the infrastructure. But there are simple steps IT leaders can take before disaster strikes. [READ MORE](#)

## Dell sees open, 'new IT' as critical to Canada's competitive advantage

IT World Canada

Tom Petty once crooned that the future was wide open. For Dell, the future is about being more open than anyone else. As the company waits for its acquisition of EMC to close, Armughan Ahmad, Dell's vice-president of global enterprise solutions, was willing to talk everything and anything at an informal presentation with Canadian journalists yesterday, except the pending deal. [READ MORE](#)

## Middleware 2015

CIPS

The annual ACM/IFIP/USENIX Middleware conference is a major forum for the discussion of innovations and recent advances in the design, construction and use of middleware systems. Following the success of past conferences in this series, the 16th International Middleware Conference will be the premier event for middleware research, technology and experimentation in 2015.
