Apps like Uber need more attention

IT World Canada

Uber is an example of a computer app that causes disruption to the economics of a profession. Jon Kay at the Walrus says it is unethical for the public not to help the taxi drivers. What about the people that wrote the app? Are they being unethical? **READ MORE**

Can Wal-Mart convince customers to use digital wallets?

PYMNTS.com

Remember that time Tim Cook said that 2015 was going to be the "year of Apple Pay?" Well, it might have taken just about 11 months, but it looks like Walmart has formulated a response. Sure, Walmart's announcement that it is taking the mobile payments playing field and launching its own proprietary payments platform was probably not much of a surprise, but what was how it chose to do it. [READ MORE](#)

McAfee Labs: Mobile banking apps to be a growing security threat in 2016

IT World Canada

While the convenience of banking apps can't be denied, the mobile technology has the potential to be a huge security risk in 2016, according to a new report. According to the November 2015 Threats Report released recently by Intel Security's McAfee Labs division, mobile banking apps, along with macro and fileless malware were revealed to be key security threats in the third quarter of this year. Canadian survey aims to improve data on state of cyber security here

IT World Canada

One of the country's biggest IT lobby groups is trying to put hard numbers on the state of cyber security in Canada. The cyber council of Canadian Advanced Technology Alliance (CATA) released a 30-point questionnaire Monday for C-level executives and managers to fill in gaps in data before it goes to Ottawa, the provinces and the private sector to marshal weapons in the war against cyber attackers.
