## From students to start-ups: Developing tomorrow's innovation talent today — participate in ITAC Talent's Business Technology Management Project

CIPS

The Information Technology Association of Canada (ITAC) Talent division would like to invite CIPS members to participate in the Business Technology Management (BTM) project and in the process learn more about this fastest growing (but also most invisible) segment of the ICT industry sector. Specifically, we would like you to participate in a virtual meeting scheduled for early in the New Year.

## What are the technology trends at the international CES?

CIPS

The CES is the largest international technology showcase with the future on interactive display in over two million square feet spread over three conference centers. Technology trends, many of them rooted in the consumer space enter the enterprise with past examples of email, internet, smart phones, mobile apps and tablets.

### Security predictions 2015: Encryption increases in enterprises

IT World Canada

History has a way of repeating itself. 2013 ended with revelations of a huge data breach at Target Brands. 2014 ended with revelations of a huge data breach at Sony Pictures Entertainment. So it comes as no surprise that Forrester Research predicts data encryption and key management will be one of the big priorities for CIOs/CSOs in 2015 to

protect sensitive information.

## Cyber Security for Oil & Gas Summit Canada

CIPS

Cyber Security for Oil & Gas Summit Canada will bring together top information security experts to address the current concerns regarding cyber threats within the Oil and Gas industry. With high-level discussions of major industry challenges, such as: an increase in targeted attacks, data exploitation and managing the increase in vulnerable handheld communication tools, this will be the must-attend summit of the year.

## 10 Internet of Things predictions for 2015

IT World Canada

With all the hype around the Internet of Things, it's very easy to dismiss the term as just another trendy catch phrase. But the truth is IoT is very much a commercial reality in Canada as well as around the world.
